**Stewart Redman, Consultant Radiologist**

*"A Gamma-CT Scanner is so advanced because of its ability to combine a traditional Gamma Camera with a CT Scanner. The additional CT component gives pictures of brilliant clarity, allowing a more accurate diagnosis, which enables us to provide a much better service for our patients during a very stressful time in their lives."*

**We need your help to provide this state-of-the-art Gamma CT Scanner**

**Can you help us provide the very best diagnosis and treatment?**

The Forever Friends Appeal is committed to raising **£650,000** to purchase a new Gamma-CT Scanner. This will be the first component of our exciting new 'Space for Cancer Care' Campaign. Phase 2 will be launched to the public in 2012.

The Campaign as a whole is designed to provide the very best treatment for all our cancer patients as part of the hospital's on-going Cancer Strategy.
